Education

2022-PRESENT

**BTECH COMPUTER SCIENCE AND
CYBER SECURITY**

University college of
engineering, Muttom Thodupuzha

SKILLS

- Awareness sessions
- Kali linux
- Cyber Security
- Teambuilding
- Teamwork
- Attention to details
- Thinking outside the box

ABOUT ME

As a dedicated cybersecurity student, I have gained valuable experience in various aspects of the field through internships, coursework, and personal projects. My focus has been on cybersecurity awareness and education, with a particular emphasis on incident response.

I have had the privilege of conducting awareness sessions in schools, where I educated teenage students about the importance of cybersecurity. These experiences have honed my ability to communicate complex security concepts in an accessible and engaging manner.

I have also worked to report child abuse materials to international watch foundations, demonstrating my commitment to creating a safer online environment. Currently, I am actively studying AI and ML to contribute more effectively to the eradication of such harmful materials.

My strong analytical skills, attention to detail, and ability to work well in a team make me a valuable asset to any organization. I am particularly interested in volunteering in law enforcement, where I believe my skills and experiences can make a significant impact.

My career goal is to make cyberspace safer for common people in all ways possible. I am eager to continue learning and growing in the field of cybersecurity and am excited to apply my skills and knowledge to real-world challenges. I look forward to the opportunity to contribute to your team and help create a safer digital environment for everyone.

Experience

CTF Player

HackTheBox

TryHackMe

Pico CTF

January 2023-present

Learned new skills and applied to daily tasks to improve efficiency and productivity.

CERTIFICATIONS

- EC -Council D|FE

INTERESTS

- Programming
- Digital Forensics
- Awareness creation
- Penetration testing

Cyber Security Trainer

Project Zer0

April 2023

Conducted various cyber security related workshops providing hands on training for students

Awareness sessions

October 2023

Conducted awareness sessions at schools as a part of cyber awareness month educating students about the existing and new threats in cyber world

Internships and workshops participated

Techmaghi Cyber security and Ethical hacking Internship
9th May 2023-13th May 2023

- Familiarised with various tools like **TCPVIEW,WIRESHARK**
- performed monitored attack on a website taking advantage of Apache Superset RCE vulnerability CVE-2023-27524

Teachnook Cyber security and Ethical hacking Internship
FEBRUARY 2023-PRESENT

- Familiarised with tools such as **METASPLOIT FRAMEWORK, NMAP,WAYBACKMACHINE**
- Familiarised with various ciphers
- Made a keylogger with the help of PYTHON
